

Presentation to F2 Parents  
on  
Possible influence on F2 students under  
NSS Curriculum  
&  
F3 class arrangement

Mr. S P Tam  
Principal, WYCHK

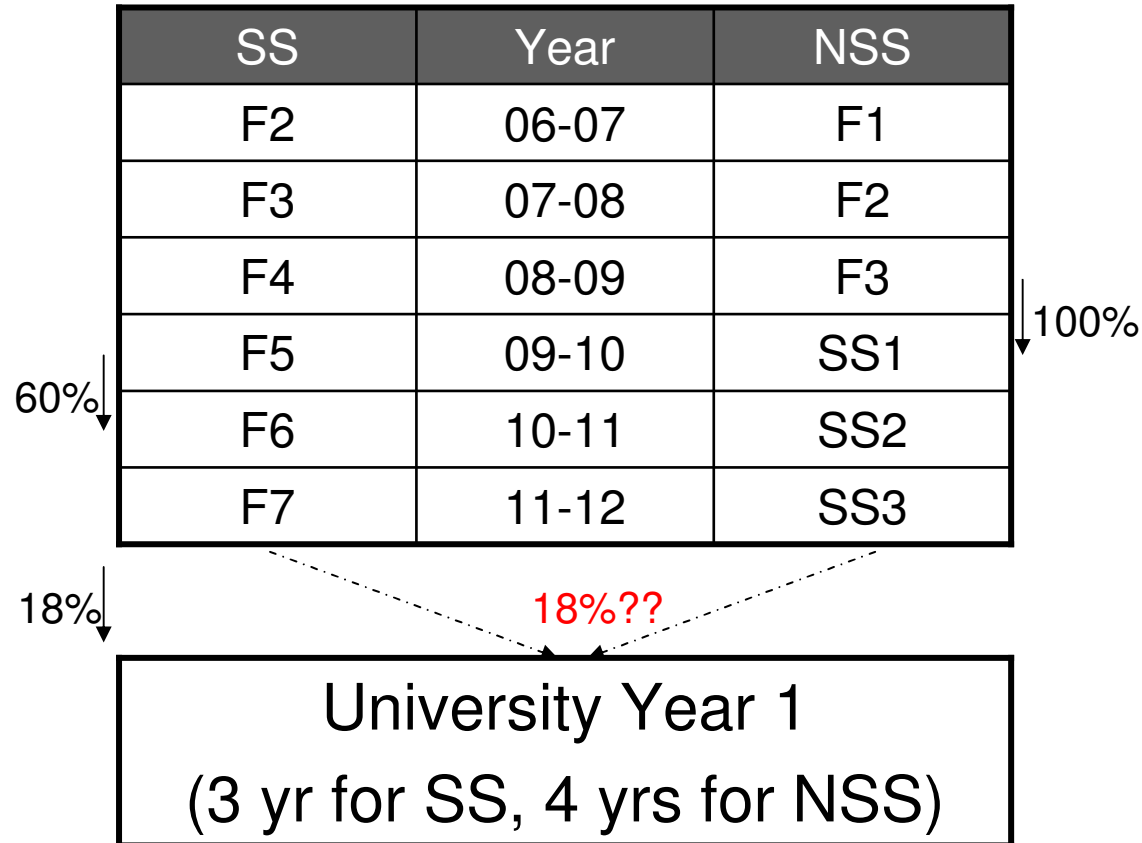

(note taking by [Simon Chan](#))

29.3.2007

# New Senior Secondary (NSS) Curriculum

- For current F.1 students and repeaters of F.2
- Starts SBA (School Based Assessment) in SS1 contributing 15-20% marks
- **Four core subjects** (Eng, Chin, Math & Liberal Studies) plus **Three electives**. Capable students can take one more in future HK Diploma of Secondary Education (HKDSE).

# Issue of Double Cohort

- University Intake in Sept 2012 remain at 18% of students?
- University ability to accommodate ~33% growth in teaching staff, space, etc.
- Two different courses, one for current SS students, one for NSS students at University?

Result: Intense competition to enter U. in the year 2012

# Implication for WY F.2 students

- F.5 HKCEE in 2010 & F.7 AL 2012
  - No repeater offer in WYCHK
  - Repeaters have to find outside schools for entering the last HKCEE in 2011 & AL in 2013
- It is more beneficial to repeat before the SS1, if one have to:
  - Current F.2 students to NSS F.2 in 07-08, or F.3 students to NSS F.3 in 08-09

# Study Matters

- More emphasis in studying while balancing other activities
- Pass in exam = Chin/Eng pass + half of other subjects
- Supplementary exam
  - Selected students to re-sit those subjects failed or attend special classes
  - Then consider promoting to next form in trial basis
- F3 streaming policy
  - Top 40 students allocated to 3K to improve student learning
  - Continue for one more year (07-08) and a review to be conducted
  - Dedicated teacher assigned for gifted programs for gifted students
- Split class arrangement
  - F1/2 has Eng/Chin divided to 28/14 students to enhance learning
  - F3 will have F3K no split class, F3W/Y/H grouped into 5 classes for Eng/Chin

- END -
